## DUN'S REPORT.

Speculative Reaction Has Not Changed in the Least.

The Railroad Earnings Are 4.1 Per Cent. Larger Than Last Year.

Demand for Boots and Shoes Slightly Better—Textile Manufacturers Making Improvement—Print Cloths Decline to the Lowest Point Ever Reached.

New York, June 13.—R. G. Dun & Co. says Saturday in their weekly review of trade:

Failures for the week have been 246 in the United States against 241 last year and 27 in Canada against 24 last year. Speculative reaction has not the least changed the business outlook. The fictitious price made for wheat and cotton meant no good except for individuals and the change in prices more nearly in accord with actual relations of demand and supply only confirms the conditions which have been well known for months. The attacks on stocks on Wednesday was so plainly artificial that its influence passed with the day, and neither in foreign relations nor in domestic business was there anything to justify alarm. The Government report as to wheat indicated a much smaller yield than anybody really expects, but that has become so much the rule that the report had no real influence and the principal effect was the serious depreciation caused by large sales in anticipation of the report which seemed to be thoroughly known in advance to some speculators. The government estimate as to cotton was unexpectedly favorable, and has caused a decline of more than half a cent in a single week.

Railroad earnings for the first week of June were 4.1 per cent. larger than last year.

It is not the time to look for marked improvement in industries and the best thing that can be said of them is that none have as yet been seriously disturbed by the threatened labor difficulties. It seems not improbable that all such difficulties may be averted, except, perhaps, the controversy about wages of iron puddlers and tin plate workers. Markets are extremely dull because a great number of orders for finished products are kept back by uncertainty regarding the maintenance of prices by the various pools and combinations. In all the markets the tendency is toward lower prices.

The demand for boots and shoes seems slightly better, notwithstanding an advance of 2 1/2 cents per pair is demanded on some staple qualities. The textile manufacturers are making improvement. The accumulation of cotton goods declined to the lowest point ever reached, and a general stoppage to relieve the market is expected. Sales of wool in two weeks of June have been only 5,823,000 pounds against 12,562,000 pounds last year, and no gain is expected in the manufacture for some time to come.

### MINE ON FIRE.

Eighty-Two Men Make Narrow Escape—Three Are Still in the Shaft.

TAYLORSVILLE, Ill., June 13.—The Taylorville Coal Mining works were entirely destroyed by fire Friday morning and 82 men were in the mine. The fire originated in the oil room, situated in the shaft, 500 feet below. A miner unconsciously left a lighted torch near the oil rooms, which ignited the oil and caused an explosion. From this the fire started and swept with terrific speed to the top of the main shaft and soon the entire structure was enveloped in flames. All the men except three were rescued through shaft No. 2, after three hours of suffering. The three remaining are undoubtedly dead from suffocation.

Former Millionaire Dying Penniless.

NEW YORK, June 12.—A Recorder special from Boston says: Rodney Fiske, the famous young millionaire from California who started Wall street a few years ago by his wild speculation and who disappeared mysteriously a few years ago, after squandering his original legacy of \$1,300,000 and the millions he added to it is dying in this city, penniless, and dependent upon the hospitality of comparative strangers.

The Purchase of Silver Bullion.

WASHINGTON, June 13.—Of the silver bullion purchased under the act of July 14, 1890, there are now on hand 122,998,452 fine ounces; the cost of this bullion is \$119,941,055; its coinage value, \$172,541,414. The total number of silver dollars coined from bullion purchased under the act of July 14, 1890, to June 1, 1896, was \$40,044,651. Upon this coinage there was a seigniorage or profit of \$10,117,334.

Accidentally Shot Himself.

Kokomo, Ind., June 13.—Hon. Luther McDowell, one of the alternates to the convention at St. Louis, will not be able to attend. L. E. Hensley, a member of his family, accidentally shot himself while hunting in Ervin township. A premature discharge of the gun took away the right arm of the young man, and the injury is thought to be fatal.

Jules Simon's Funeral.

PARIS, June 13.—The funeral of M. Jules Simon, the distinguished French statesman who died last Monday, took place Saturday, and was attended by a large gathering of notable persons. President Faure, Emperor William of Germany, and King Leopold of Belgium, were represented at the obsequies.

Bank Safe Robbed.

PALMER, Kas., June 13.—The bank of Palmer was broken into at three o'clock Saturday morning, the safe blown open and entirely destroyed and the cash box robbed of \$1,100, all it contained. The damage to the safe and building amounts to about \$1,800. The burglars escaped, leaving no clue.
